Journal of Sedimentary Petrology

INDEX TO VOLUME 35

A fractionator for medium and fine silt 489
A method of indicating pebble shape with one parameter 993
A new method of displaying microstructures in porous limestone 250
A peculiar pedestalate terrace, San Nicolas Island, California 507
A study of maximum load for small-diameter sieves 792
"A very scientific gentleman. The major achievements of Henry Clifton Sorby," review of 520
Abrasion grade of sand grains (mechanical graniformetry), mechanical method of estimating the 496
Alaska, Cosmos Hills, anthraxolite derived from indigenous organic matter in Middle Devonian dolomite 599
Alberta, Devonian paleoecology of northeastern Alberta 818
Algal colonies, grain-diminution of to micrite 420
Allen, J. R. L., article by 167
Allen, J. R. L., arricle by 331
"Amplitude," on the use of the term in ripple mark description 503
An improved carbonate peel technique for high-powered studies 499
Analcime-rich Popo Agie Member, Chugwater (Triassic) Formation, west-central Wyoming, sedimentary petrology and origin of 49
Andel, Tjeerd H. van, and Shor, George G., Jr., "Marine geology of the Gulf of California: a symposium," review of 524
Andhra Pradesh, India, paleocurrents in the Miocene Rajahmundry Formation 758
Andrews, J. T., note by 753
Animikean Quartzites, Florence County, Wisconsin, sedimentology of Middle Precambrian 805
Anthraxolite derived from indigenous organic matter in Middle Devonian dolomite, Cosmos Hills, Alaska 599
Antidune cross-bedding in a large flume 922
Apennines, Northern, Italy, recent studies in the. On the heavy mineral zones in the geosyncline series 109
Application of the electron microscope to the study of particle orientation and fissility in shale 408
Areas, source, of the Patula Arkose (Lower Cretaceous), Coahuila, Mexico 512
Argentina, surface properties and epigenic fractures of gravels from Patagonia 976
Argillites, "varved", power-spectrum analysis of two, in the Huronian Cobalt series (Precambrian) of Canada 877
Arithmetic and phi size-distribution moments, transformation of 969
Arlington, Texas, genesis of an Upper Cretaceous offshore bar near 22
Atlantic beach and dune sediments of the southern United States 900
Australia, Sydney, large-scale cross-stratification in Triassic sandstones 765
Baffin Bay Island, Canada, surface boulder orientation studies around the northwestern margin of the Barnes Ice Cap 753
Bahama carbonate sediment, radiocarbon dating of size fractions of a sample of 874
Bandy, Orville L., and Merriam, Richard, article by 911
Bar, Upper Cretaceous, offshore, near Arlington, Texas, genesis of a 22
Barnes, Christopher R., note by 257
Barnes Ice Cap, surface boulder orientation studies around the northwestern margin of the, Baffin Bay Island, Canada 753
Barnhart, J. T., Mackenzie, F. T., Kulm, L. D., and Cooley, R. L., article by 265
Barrett, P. J., errata by 275
Baver, L. David, Jr., Moberly, Ralph, Jr., and Morrison, Anne 589
Beaches, Long Island Sound, sedimentation-erosion cycles of single tidal periods on 604
Beach, formation of ice-cemented sand blocks on a, and lithologic implications 964
Beach and dune sediments of the southern United States, Atlantic 900
Beach pitting: an unusual beach sand structure 495
Beach rock, nature and origin of 243
Beach sand, an unusual structure: beach pitting 495
Bedding, biogenic graded 956
Bentor, Y. K., and Kastner, Miriam, article by 155
Bergenback, R. E., Weber, J. N., Williams, E. G., and Keith, M. L., article by 36
Biogenic graded bedding 956
Bluck, Brian J., article by 656
Boulder, surface, orientation studies around the northwestern margin of the Barnes Ice Cap, Baffin Bay Island, Canada 753
Brewer, Roy, "Fabric and mineral analysis of soils," review of 522
Briggs, Louis I., article by 939
Briggs, Louis I., review by 523
Bryozoan limestone and adjacent limestones in North Wales, Great Britain, petrology of a Lower Carboniferous 887
Burst, J. F., article by 348

Calcarenites, residual seams and cementation in Oligocene shell, Te Kuita Group, errata 275
Calciferous sandstone series sedimentation at the eastern end of the Midland Valley of Scotland 223
Calcite-dolomite ratios vs. insoluble content in the Lockport Formation (Niagaran) in New York State 262
Calcite, dolomite-, relationships in sea water: theoretical considerations and preliminary experimental results 339
Calcite spherulites from Morrison Formation, Wyoming 985
Calcitization, dolomitization, and silicification patterns in Cambro-Ordovician oolites from northwest Scotland 928
California, northern, petrography and origin of Permian McCloud Limestone of 136

California, Sacramento Valley, implications of two Cretaceous mass transport deposits... 401
California, San Nicolas Island, a peculiar pedestalate terrace... 507
Cambro-Ordovician oolites from northwest Scotland, dolomitization, silification, and calcitization patterns in... 928
Canada, power-spectrum analysis of two "varved" argillites in the Huronian Cobalt Series (Precambrian) of... 877
Canada, probable spur-and-groove structures in Middle Ordovician limestone near Ottawa 257
Canada, surface boulder orientation studies around the northwestern margin of the Barnes Ice Cap, Baffin Bay Island... 753
Cann, J. R., and Stoddart, D. R., note by... 243
Carbon isotope ratios, reconstruction of depositional environments in the Pennsylvanian Vanport Basin by... 36
Carbonate peel technique, an improved, for high-powered studies... 499
Carbonate petrography of some Lower and Middle Paleozoic rocks, West Flank Teton Mountains, Wyoming, representative... 704
Carbonate rocks in thin sections, improved method for studying... 491
Carbonate rocks, the preparation of stained acetate peels for the study of... 248
Carbonate sediment, radiocarbon dating of size fractions of a sample of Bahama... 874
Carbonate sediments, early diagenesis and lithification in, errata... 518
Carbonate sediments, Recent, significance of constituent composition, texture, and skeletal breakdown in some... 71
Carbonates, formation of silica cement and its replacement by... 733
Carbonates, sedimentation of Middle Devonian, southeastern Indiana... 656
Carboniferous, Lower, Bryozoan limestone and adjacent limestones in North Wales, Great Britain, petrology of a... 887
Carboniferous marine invasion in western Pennsylvania, characteristics of... 319
Carver, Robert E., note by... 980
Catacosinos, Paul A., article by... 354
Cement, silica, formation of and its replacement by carbonates... 733
Cementation as a clue to structure, drainage patterns, permeability, and other factors... 797
Cementation, residual seams and, in Oligocene shell calcarenites, Te Kuiti Group, errata 275
Characteristics of a Carboniferous marine invasion in western Pennsylvania... 319
Chilingar, George V., review by... 520
Chugwater (Triassic) Formation, west-central Wyoming, sedimentary petrology and origin of analcime-rich Popo Agie Member... 49
Chugwater (Triassic) Formation, Wyoming, iron oxides and fine-grained rocks of Red Peak and Crow Mountain Sandstone Members... 464
Clay minerals, possible roles of in the formation of dolomite... 448
Clay, subaqueously formed shrinkage cracks in 348
Clays, flint, Middle and Late Pennsylvanian... 610
Clifton, H. Edward, article by... 867
Colonies, algal, grain-diminution of to micrite... 420
Colorado delta region, source of upper Cenozoic sediments in... 911
Colorado Plateau, heavy mineral evidence for source of some Permian quartzose sandstones... 391
Composition, constituent, texture, and skeletal breakdown in some Recent carbonate sediments, significance of... 71
Composition, mineralogical, of shales... 213
Conical slip-marks in shale... 997
Conolly, John R., article by... 116
Conolly, John R., note by... 765
Conover, J. Towne, and Dillon, William, note by 964
Content, insoluble, vs. calcite-dolomite ratios in the Lockport Formation (Niagaran) in New York State... 262
Contributors, to the *Journal of Sedimentary Petrology*, suggestions for... 5
Cooley, R. L., MacKenzie, F. T., Kulm, L. D., and Barnhart, J. T., note by... 265
Coprolites, on the earliest recognition of... 272
Correlation of sedimentary fabric and sole marks as current indicators in turbidites... 100
Correlations and provenances, heavy mineral... 939
Cortelezzi, Cesar R., and Kilmurray, Jorge O., article by... 976
Cosmos Hills, Alaska, anthraxolite derived from indigenous organic matter in Middle Devonian dolomite... 599
Cracks, shrinkage, in clay, subaqueously formed 348
Crawford, Paul B., and Talash, A. W., article by 917
Cretaceous mass transport deposits, Sacramento Valley, California, implications of two... 401
Cross-bedding in a large flume, antidune... 922
Cross-stratification, large-scale, in Triassic sandstones, Sydney, Australia... 765
Crow Mountain and Red Peak Sandstone Members, Chugwater (Triassic) Formation, Wyoming, iron oxides and fine-grained rocks of 464
Crystallization textures and fabrics in sedimentary rocks, terminology of... 643
Current indicators in turbidites, correlation of sedimentary fabric and sole marks as... 100
Cycles, sedimentation-erosion, of single tidal periods on Long Island Sound beaches... 604

Dating of size fractions of a sample of Bahama carbonate sediment, radiocarbon... 874
Davis, Richard A., Jr., article by... 857
Davis, Richard A., Jr., note by... 495
Deformed sedimentary structures, primary, in some metamorphic rocks from Scotland, observations on... 415
Delaware, Virginia, and Maryland, petrology of the Paleocene-Eocene Aquis Formation of 626
Deltaic rocks of south-central New York State, flow rolls of Upper Devonian... 553
Deltas, laboratory, hydraulic factors controlling the shape of laminae in... 777
Demirmen, Ferruh, and Harbaugh, John W., article by... 136
Deposition, environment of, and genesis of the Meagher Formation in southwestern Montana... 428
Depositional environment of the Gowganda Formation (Precambrian) at the south end of Lake Timagami, Ontario... 309
Depositional environments, reconstruction of, in the Pennsylvanian Vanport Basin by carbon isotope ratios... 36
Deposits, Cretaceous mass transport, Sacramento Valley, California, implications of two... 401
Determination of the size-velocity relation for foreshore sediment transport, Sandy Hook, New Jersey, fluorescent tracer particle... 989
Devonian paleoecology of northeastern Alberta 818
Diagenesis, early, and lithification in carbonate sediments, errata... 518

Diagnostic characters of fluviatile sediments of the Torridonian Formation (Precambrian) of northwest Scotland 366
Dillon, William P., and Conover, J. Towne, note by 964
Distribution, pore, rock properties computed from random 917
Distribution, reproductibility, and significance of measurements of sedimentary size and .. 722
Distribution, size, transformation of weight and number frequencies for phi-normal 973
Distributions, on the problem of *n* in weight frequency 984
Dixon, J. R., and Reeve, C. C., Jr., article by .. 704
Dodge, Charles F., article by 22
Dolomite, identification of 274
Dolomite in Middle Devonian, Cosmos Hills, Alaska, anthraxolite derived from indigenous organic matter in 599
Dolomite, possible roles of clay minerals in the formation of 448
Dolomite-calcite relationships in sea water: theoretical considerations and preliminary experimental results 339
Dolomitization, silification, and calcitization patterns in Cambro-Ordovician oolites from northwest Scotland 928
Donahue, Jack note by 251
Drainage patterns, structure, permeability, and other factors, cementation as a clue to 797
Drobnyk, John W., article by 626
Dune and beach sediments of the southern United States, Atlantic 900
Duperow Formation (Upper Devonian) in western North Dakota, petrography of portions of the 553
Duschatko, Robert W., review by 520
Dżulyński, Stanislaw, article by 196

Early diagenesis and lithification in carbonate sediments, errata 518
Electron microscope, application of to the study of particle orientation and fissility in shale 408
Empirical formula for velocities and Reynolds' numbers of single settling spheres 749
Engelhardt, W.v., Füchtbauer, H., and Müller, G., "Sediment-petrologie," review of 523
Environment, depositional, of the Gowganda Formation (Precambrian) at the south end of Lake Timagami, Ontario 309
Environment of deposition and genesis of the Meagher Formation in southwestern Montana 428
Environmental interpretation, significance of skewness and kurtosis in 768
Environments, reconstruction of depositional in the Pennsylvanian Vamport Basin by carbon isotope ratios 36
Eocene-Paleocene Aquis Formation of Virginia, Maryland, and Delaware, petrology of 626
Epigenic fractures of gravels from Patagonia, Argentina, surface properties and 976
Erosion, sedimentation-, cycles of single tidal periods on Long Island Sound beaches ... 604
Errata 275
Errata 518
Experimental production of sedimentary structures, new data on 196
Experimental results and theoretical considerations: dolomite-calcite relationships in sea water 339
Extinction, undulatory, and polycrystallinity, the occurrence of in quartz in sandstones .. 116
Extinction, undulose, in fine-grained rocks 980

"Fabric and mineral analysis of soils," review of 522
Fabric, sedimentary, and sole marks, correlation of, as current indicators in turbidites .. 100
Fabrics, terminology of *crystallization textures* and, in sedimentary rocks 643
Facies maps based on the megascopic examination of modern sediments 619
Fault plane features: an alternative explanation 746
Ferm, John C., and Williams, E. G., article by . 319
Ferm, J. C., Meland, Nils, and Norrman, J. O., note by 984
Ferruginous oölites and pisolites 838
Fine-grained rocks, undulose extinction in 980
Fischer, A. G., Honjo, S., and Garrison, R., article by 480
Fissility in shale and particle orientation, application of the electron microscope to the study of 408
Flemming, N. C., article by 381
Flint clays, Middle and Late Pennsylvanian .. 610
Florence County, Wisconsin, sedimentology of Middle Precambrian Animikean Quartzites 805
Flow rolls of Upper Devonian deltaic rocks of south-central New York State 553
Fluorescent tracer particle determination of the size-velocity relation for foreshore sediment transport, Sandy Hook, New Jersey 989
Flume, antidune cross-bedding in a large 922
Fluviatile sediments of the Torridonian Formation (Precambrian) of northwest Scotland, diagnostic characters of 366
Folk, Robert L., note by 272
Folk, Robert L., review by 522
Ford, A., and Houbolt, J. J. H. C., "The microfacies of the Cretaceous of western Venezuela," review of 520
Foreshore sediment transport, Sandy Hook, New Jersey, fluorescent tracer particle determination of the size-velocity relation for 989
Form and function of sedimentary particles ... 381
Formation of ice-cemented sand blocks on a beach and lithologic implications 964
Formation of silica cement and its replacement by caronates 733
Formula, empirical, for velocities and Reynolds' numbers of single settling spheres 749
Four Corners Region, Upper Jurassic paleogeography of 564
Fractionator, a, for medium and fine silt 489
Fractions of a sample of Bahama sediment, radiocarbon dating of size 874
Fractures, epigenic, of gravels from Patagonia, Argentina, surface phenomena and 499
Frank, Ruben M., note by 499
Frequencies for phi-normal size distribution, transformation of weight and number 973
Frequency, weight, distributions, on the problem of *n* in 984
Friedman, Gerald M., article by 5
Friedman, Gerald M., article by 643
Friedman, Gerald M., errata by 518
Friedman, Gerald M., review by 524
Friedman, Gerald M., review by 525
Friedman, Gerald M., and Katz, Amitai, note by 248
Füchtbauer, H., Englehardt, W.v., and Müller, G., "Sediment-Petrologie," review of 523
Function and form of sedimentary particles 381

GEOCHEMIST PHD OR EQUIVALENT

For research into association between geochemistry and sedimentary environments. Should be familiar with atomic absorption, emission spectroscopy and X-ray fluorescence. To be located in Sinclair's New Research Center—Tulsa, Oklahoma.

Send complete resume and salary requirements in confidence to:
